N The Engine of this Train must convey from Witney Goods Yard to Witney Junction any Traffic for the direction of Fairford, to go forward with the 12.45 p.m. Goods ex Oxford. It must also convey any Traffic for Witney into the Goods Yard brought to the Junction by the latter Train.

On days when the shunting at Witney is heavy for this Train, and it is necessary for it to be kept back at that Station until 5.30 p.m. to complete the work Mr. ROBERTS (Witney) to wife Messrs. BROOKER and BROWN (Oxford) in good time for Relief men to be sent from Oxford by 4.25 p.m. Passenger, Train, and the Train will be due to arrive at Oxford 110 minutes later.

On Thursdays Goods to leave Witney punctually, and Engine and Men working 12.40 p.m. ex Oxford to do necessary work after 3.40 p.m.

T Runs Thursdays and Saturdays only between Fairford and Witney.

W This Train calls at Wolvercot Siding when required.

Y Witney Market is held Fortnightly, and on the alternate Thursdays, when market is not held, the Engine, Coaches and Guard will return from Witney to Oxford as soon as possible after arrival of 2.18 p.m. Oxford.

Z Conveys S. T. Nos. 769, 770. Wagons for West Midland Line to be taken through to Oxford. The Engines of the 2.18 p.m. from Oxford and 2.40 p.m. from Fairford will change at Witney. The former engine will work the 2.40 p.m. ex Fairford from Witney to Oxford, and the 2.40 p.m. Fairford Engine will work the 5.0 p.m. from Witney to Oxford.

DIVERTING TRAINS FROM THE MAIN TO THE RELIEF LINE, OR VICE VERSA.

1. As far as practicable, every Train must run upon the Line on which it is booked to run, but whenever it is found necessary to transfer a Train booked to run *via* the Main Line to the Relief Line, or *vice versa*, the Station at which the transfer is made must immediately advise the Box in advance by giving eight beats on the Block Telegraph Bell (thus—2 pause 6) for the Line to which the Train is transferred. A message must then be sent on the Single Needle Instrument (or Telephone where provided) in the following form:—"7.35 ex Reading on R.L." (or "M.L." as the case may be). The Bell Signal and message must be sent on from Box to Box, but only as far as to where it may be practicable to re-transfer the Train to its proper Line. Should the Signalman at the latter Box find that he cannot re-transfer the Train to its proper Line, he must promptly pass on the Signals to the next Box, from which it must be passed on to the next place where it can be re-transferred. One of the objects in sending this advice, in the case of Passenger Trains, is to enable persons in charge of Stations in advance to direct passengers to the proper platform, before the Train arrives; therefore, every despatch must be used in transmitting the Signals from Box to Box.
2. In ordinary working, a Passenger Train must not be transferred or re-transferred from one Line to another, except at a Facing Point Running Junction.
3. When a Train has been transferred from one Line to another it is the duty of the Guard to change his side light at the next stopping station.
4. The Signals sent on the Single Needle Instruments or the Telephones must be entered in the Train Register Books.
5. The Facing Point Direct Junctions are as under:—

ARRANGEMENTS FOR THE DIVERSION OF GOODS TRAINS (BOOKED TO RUN DIRECT BETWEEN READING AND BRISTOL) TO RUN VIA DEVIZES AND BRADFORD OR LAVINGTON AND SOMERTON DURING DENSE FOGS.

When dense or prolonged fogs exist in the London and Bristol Divisions, or either of those Divisions, and the Running of Goods Trains is likely to be seriously affected thereby, arrangements must be made for certain Goods Trains, booked to run over the Main Line between Reading and Bristol to be diverted via Lavington or Devizes, and the following will be the basis for general working:—

Goods Trains must not be diverted until telegraphic messages have been exchanged between Reading and Bristol, which Stations will be responsible for giving instructions for such diversion. When it is agreed to divert the Trains Reading must wire to Mr. Dunster giving particulars of Trains that will be diverted, and Bristol must, if time will permit, also wire Mr. Rowed, Exeter, or Mr. Grant, Plymouth, as the case may be, giving similar particulars in order that the Enginemen and Guards may be advised before starting what is intended to be done. When, however, there is not time to advise the starting point of the Train, Reading or Bristol, as the case may be, must give instructions to the Trainmen on arrival at those Stations, and they must satisfy themselves that the Drivers know the road over the diverted route, or see that Pilot Drivers are provided.

The following Trains may be diverted as a general rule, but others may be diverted when convenient and practicable.—
